

How Is The Total Revenue Differs Between Consumer Staples And Consumer Discretionary Sectors In 2016?

Total Revenue for Consumer Staples over 2016

Total Revenue for Consumer Discretionary over 2016

These two diagrams show the total revenue for all companies categorized under Consumer Staples and Consumer Discretionary sectors over 2016.

The mean of total revenue is above \$24 billion in Consumer Discretionary and more than \$54 billion in Consumer staples (\$30 billion more). The standard deviation appears in Consumer Discretionary with \$34.6 billion, against the Consumer staple that has more than \$103 billion. That means more spread out from the mean (\$54 billion) and refers to it has more variability.

Both sectors have an enormous decrease in total revenue after January until November. However, Consumer Discretionary has a total revenue above \$1.3 trillion higher than Consumer Staples that has above \$1.2 billion.
